Conference May Be Deadlocked

Next of June 14—Railway managers and officials of railway unions who are discussing wages and hours were believed that this morning was the last day of their conference and that it would end in a deadlock. The conference has been in session since the time since January 1st and is estimated to have cost approximately \$100,000. More than 800 delegates from the unions of railway employees are attending 350,000 workmen have been affected.

The railway men have rejected flatly the proposals of the managers that no more should be paid twice for the same thing although his day may be divided between two classes of work. Some of the 124 questions submitted by the men to the managers remained to be answered today. After this, it was expected the conference would adjourn.

Labor leaders said the next step would be to submit to the unions a referendum vote as to whether the officials should be empowered to exercise their own judgment in calling a strike if that were decided in the affirmative. Another conference of the managers would be called.

DELEGATE PIERCE HOME

Former Banker, Who Was National Delegate to Progressive Convention, Returns

K. K. Pierce, the well known Hemphill banker, returned home Tuesday from Chicago, where he attended the national Progressive convention at last week's delegate from the sixth district of Nebraska. Mr. Pierce was accompanied on the trip by his family.

In an interview with a Herald reporter he stopped off at Alliance. Mr. Pierce gave an interesting account of the Chicago convention. He stated that the question of Roosevelt remaining for president on the Progressive ticket is still up in the air and depends a great deal on the stand taken within the next few days by Justice Hughes, the Republican nominee.

Mr. Pierce is of the opinion the majority of the Progressives will support the Republican ticket this fall, providing Hughes comes out strongly for the principles advocated by the Progressives. He stated that the Democrats were present at Chicago in large numbers to solicit the support of the Progressives for President Wilson and that if the Democrats adopted a "Rooseveltian" platform at St. Louis this week they might succeed in getting a large amount of support from the Progressive voters over the country.

Mr. Pierce has taken an active part in the Progressive party of northwestern Nebraska since its organization and is regarded by those who know him as a man of good political judgment and one who is strong for the progressive principles advocated by Mr. Roosevelt.
